The Future of Long Term Care
Changes to the MDS, CMS Five Star Rating and the Final Rule 2017

Tuesday, September 20, 2016
8:30am – 4:00pm

LaGuardia Marriott Hotel
102-05 Ditmars Blvd.
East Elmhurst, New York 11369

About the Program
The Affordable Care Act (ACA), the IMPACT Act, SNF Value Based Purchasing (VBP), the Final Rule for Medicare and Medicaid and the SNF Quality Reporting Program all require changes to the Minimum Data Set (MDS 3.0) effective October 1, 2016. These changes include the addition of a SNF Medicare Part A PPS discharge assessment when a Medicare Part A stay ends and the addition of Section GG to capture functional status items from the Continuity Assessment and Evaluation (CARE) item set. Now more than ever, your interdisciplinary team must work together to meet the CMS Quality Initiative and have a clear understanding of these changes to ensure success. The speaker will assist facilities in negotiating through these changes. In addition to regulatory and reimbursement details, this seminar will provide your interdisciplinary team with valuable strategies to proactively develop policies and procedures to become a higher quality facility. This program will be of particular interest to Administrators, Nursing Management, MDS Coordinators, Social Workers and Rehabilitation Staff.

Objectives
The learner will:
1. Identify the MDS Item Sets which require the completion of Section GG;
2. Clarify the intent of Section GG items;
3. Identify the major changes to the overall Five Star Rating System;
4. Describe the 6 point rating scaling and the activity not attempted codes;
5. Describe the Quality Measure related to Section GG data;

Southern New York Association is a Certified Sponsor of professional continuing education with the National Association of Boards of Examiners of Long Term Care Administrators (NAB). This educational offering has been submitted to the National Continuing Education Review Service (NCERS) of the National Association of Long Term Care Administrator Boards (NAB) and approval is pending.
